March 8, 2021

TO: Mayor and City Council Members

FROM: Craig Bessinger, City Manager

RE: 2021 City Council Goals Update

**Goal 1: Financial Sustainability/Balanced Budget.**
Department Heads have submitted their requests and staff is working on preparing the 2021-2022 City Budget for Council review.

**Goal 2: Motorized Millage.**
This will be on the May 4, 2021 ballot, requesting a one-half mill for 10 years.

**Goal 3: City Infrastructure.**
Asset Management Plans have been developed for water and sewer. From work done via the SAW Grant, storm sewer repairs were identified and prioritized. City streets were inspected and given a Paser rating.

**Goal 4: Smith’s Bridge Solution.**
At their meeting on February 15, City Council approved a proposal from Fleis & Vandenbrink to prepare a Local Bridge Grant application for rehabilitation of the bridge.

**Goal 5: Improvements/ADA Universal Inclusive for City Hall/DPW/Parks/Fire Barn.**
The Recreation Commission is working on site plans for Fire Barn Park and City Hall property. If improvements are made to the City Hall and DPW Buildings, Universal Inclusive Design will be incorporated.

**Goal 6: Economic Development Growth.**
Having good streets, sanitary sewer and City water with comparable rates will help attract business to Ferrysburg. Staff continues to work on these items.

**Goal 6: Board/Commissions Recruitment and Training.**
Staff continues to look for available training and distribute the information when training becomes available. The City Clerk will advertise for positions on the City’s various Boards and Commissions.

**Goal 6: Collaboration with Neighboring Communities:**
Staff keeps in contact with neighboring communities on ways to collaborate.

**Goal 7: City Branding.**
The new City logo is being incorporated into all City documents. No further action has been taken on this goal at this time.

c: Debbie Wierenga, City Clerk

Subject: Upcoming Weather and Flooding (Good news)

Chiefs and Officials,
The National Weather Service put out the attached (and below) information on a rain event this Wednesday/Thursday. Our area could get .5-1” of rain, but information today may suggest even a little less than predicted. We are in a good position right now to adapt without issues to this rain because most of our snowpack is already gone, and we have approximately 2’ of room in the Grand River before we even hit minor flood stage. At this point, we do not expect to have any flooding issues. If your area does realize any significant issues please contact us here in Emergency Management at ocem@miottawa.org, or the EOC at 738-4666.
It’s nice to be able to give good news 😊 Lou

Subject: NWS Weather Message

Rain and Flood Risk
- Around an inch of rain is likely across most of the area later this week.
- The combination of rainfall and snowmelt will get all rivers rising again
- Rivers most at-risk to reach flood levels are the Muskegon, White, Pere Marquette, and Chippewa Rivers where rapid snowmelt will add to the rainfall runoff.

Wind Risk
- Winds possibly exceeding 40 MPH Wednesday night through Thursday
- Isolated power outages possible mainly along and south of I-96 on Thursday

Fog/Freezing Fog:
- Fog will develop overnight tonight into Tuesday morning mainly along and north of I-96
- Some areas may drop below freezing resulting in areas of Freezing Fog
- Localized slick spots on roads will be possible for the Tuesday morning commute
- Most vulnerable spots typically include freeway ramps and overpasses
Localized Flooding Possible

Wednesday, March 10 – Thursday, March 11, 2021

Where and When

Wednesday Morning – Thursday Night

What to Expect

Up to 1-2 Inches of Rainfall Possible

North of I-96 Still Have Up to 0.5-2.0 Inches of Water Sitting In Remaining Snowpack

Most at-risk to reach flood levels are the Kalamazoo, Pere Marquette, and Chippewa Rivers. Snowmelt will add to the rainfall runoff.
