Hello,

I am emailing to tell you that I have accepted a position outside of the City of Grand Haven. Rather than fill my position, the City has chosen to close my department and eliminate all NHS services. I am emailing you because we have an MOU for services.

We have about 30 people on a home repair waiting list for 2022. We will be offering the NIP home repair grant to these waiting list clients but we cannot accept new clients. I will be in this position until March 30. After March 30 Nan Soper will continue working with the home repair clients until the funds are gone.

As of today, March 7, we are not accepting any new clients. The best course for anyone needing services is to call 211.

Thank you all for your support for the last 5 years, it has been a great experience working with you.

Rhonda

When a thunderstorm is rolling in, what do you do?

If your first instinct is to head on to the front porch, then the role of weather spotter is for you! Weather spotters are trained individuals who help supply the National Weather Service and local emergency management with reports of what is happening during severe weather. This information plays a crucial role in identifying the severity and locations affected by storms. Four trainings are being offered by the Grand Rapids National Weather Service this spring:

- 7-8pm - Thursday, March 17 - All of South West and South Central Lower Michigan
- 7-8pm - Friday, March 18 - Grand Rapids/Holland Area
- 7-8pm - Tuesday, March 29 - Battle Creek/Kalamazoo Area
- 7-8pm - Wednesday, March 30 - Lansing/Jackson Area

The trainings are virtual, making it easier than ever to become a weather spotter. Attendance is free but registration is required. Register online. Recommended for ages 14 and older. Training IS NOT community specific however, there will be a historical weather emphasis on the area specified in the schedule. Please attend any session that fits in your schedule.

(Disclaimer-We do NOT recommend being on your porch when severe weather is approaching!)
